### To Whom It May Concern:

This letter is to show my support for the Indian Association of Chiropractic Doctors as the body to monitor all Chiropractic related endeavors in India

I came to understand that the Indian Association of Chiropractic Doctors [IACD] is the national member association for the World Federation of Chiropractic in India. The World Federation of Chiropractic is an organization regulating the standards of the Chiropractic profession throughout the world and is affiliated with the World Health Organization.

Dr. Amit Jimmy Nanda [President of IACD] along with Dr. Ricky S. Rana [Vice President of IACD] and Dr. Daniel Yen [Treasurer of IACD] hope to bring awareness of the benefits of Chiropractic treatment to the Indian Public. It is appropriate that all Doctors of Chiropractic may register with the Association and Schools which are interested to start programme on Chiropractic may register and get the approval of the Indian Association of Chiropractic Doctors.
